Vision & Mission

esources, particularly Gold | Diamond | Nickel | Silver | Copper | Manganese etc which serve as raw material paving a pa
e mineral sector to ensure its contribution in achieving the national policy goals. Major reforms include enactment of the
the State Governments. In the federal set up, States are owners of mineral wealth in their respective territories. For real
xt 5 years with resultant reduction in import dependency, by allocating and regulating minerals in a transparent and sust
y goals stated in the National Mineral Policy, 2019, thereby enabling the country to progress towards attaining self-suffici

Environment

The Environment surrounding

Unlike other regions in Africa, Zambia has been the highlighted Gold Mine land for the Foreign investors and the refineries throughout the world with an open hand welcoming tourists to explore the mining land

"Remember teamwork begins by building trust. And the only way to do that is to overcome our need for invulnerability."

– Patrick Lencioni

- One on one table talk in anywhere in Zambia | Mozambique | UAE | Singapore | Hong Kong | United Kingdom available

Key Strategies | Investment | Goal

Prospecting , Mining , Extracting and refining is the key process for the establishment of Mining industries. Our targeted goal is to set the 18 month span of period to accomplish our each project

Initial investment is set to start with in tune of Twenty Million USD 20,000,000.00.

Profit & Loss balance sheets can be provided based on the past reference records.

Investors are welcome to contact us with their own proposals such as 50/50 Partnership | 70/30 Ratio | Sleeping partner | Equipment on lease basis | Joint venture etc.

Supply chain management | Supply & Demand | Expanding production

nage blasting, mucking and processing operations across all our locations and we need more equipments to sophisticate

the refineries.

ssing technology can help meet the supply shortfall from existing operation by bridging the Gold and copper supply gap

e there are huge piles of Dust and powdered form ores we need to expand and export our products to the major existing

per in year 2022 with output down by 0.56% over the five years to 2021.Production from Zambia increased by a CGR of

ASIAN-AFRICA MINING LIMITED , This Sister branch THE MALIBU MINING LIMITED , The foreign head affiliated THE TREND

s, Companies, Brokers, intermediaries to join hand with us and our proposal is 5% the commission of each product to all

verance so we would declare and map out the capital and its expenditures and or investment on our initial table meeting

e all modalities are cleared out on the paper such as investment funds, annual output, its profit margin and the expendit

odies,Low grades,Low productivities, and regulatory challenges and we also face market volatility and weak global dema

ed technology and local man power to cut the highest cost of imports of man power. We also set out our foreign marketin

n one online platform which would help us market all companies and all Mining areas to sew them in one online URL link

t records.
